As the sheriff entered the door of the kitchen, Mrs. Marjoris, smashed a bottle containing raisin jack, her little boy screamed and her husband John, swore in several languages. This morning the defendants were brought before Justice Chamberlain They had had time to think it over while spending the night in jail, and all of them plead guilty.

Mary and John Marjoric were fined $500 and costs each; Wasily Simokerich $500 and costs, while Mrs. Anna Rabich was fined $300 and costs, a total of $1,800. The sheriff figures that the county will be able to buy a few automobile tires and considerable gasoline with the amount collected.

LABOR WILL FAVOR G. O. P. SAYS HARDING

Republican Candidate, Working on Speech, Says Platform Will Attract Farmer-Labor Vote

Marion, July 16—Senator Harding, at work on his speech accepting the republican nomination for President, expressed confidence yesterday that the platform of his party would be found progressive enough to command the support of both the farming and laboring classes

As an interpretation of the Chicago platform, the acceptance speech is expected to be the real keynote of the Republican campaign. Unusual care is being taken to make certain that it touches comprehensively on all of the important issues and lays a broad basis for the party's fight for popular support

In his declaration yesterday regarding the new Farmer-Labor party, some of the senator's friends saw an indication that the Republican attitude toward the farmer and the laborer might come in for particular attention in the notification day speech. Although the address is not to be delivered until next Thursday at the formal notification ceremonies here, he kept his caller list at a minimum, and devoted virtually all of his time to the manuscript in the hope of completing it by tomorrow night.

Did Not Offend Legion.

Senator Harding said today he had given no cause for offense to the memorial committee of the American Legion, which has been reporting his cancellation of a tentative speaking date at memorial park in St. Louis on July 25. The invitation, the candidate said, had appealed to him very strongly and he had accepted tentatively only to find later that the date fell between his speech of acceptance and that of Governor Coolidge, the vice presidential nominee. Certain courtesies which always had to be observed in such matters, he declared, had made it inadvisable that he speak anywhere during that period.

More pledges of support from former leaders of the progressive party were made public today at Senator Harding's headquarters where his managers declared that those who left the Republican party in 1912 were lining up solidly for Harding and Coolidge.

M'CURDY AND OTHERS ARE DISSATISFIED

Followers Are Divided as to Advisability of Proposed Plans

Chicago, July 16.—Formation of another new party was considered here this morning by members of the committee of 48 who dissented from the decision of their convention which adjourned last night without naming a national ticket.

Among those disagreeing with the majority conclusion to launch no new party at this time and going into conference on the question were Allen McCurdy, secretary of the committee of 48 and keynote speakers at the opening of its convention here last week and Judge Wray of Nebraska.

One of the points of disagreement between the group meeting this morning and the line of action adopted by the convention yesterday was the refusal of the convention to endorse or condemn the new farmer-labor party. Mr. McCurdy had taken a vigorous attitude in opposition to the platform of the farmer-labor party.

This morning's conference marks the third bolt of the week, nonpartisan league delegates to the committee of 48 from South Dakota first abandoned it for the labor party convention members of the committee of 48 later quitting the farm labor party and today's group finding itself out of accord with the last action of the forty-eighters.

The body was found by a searching party who sought the river after a note was found in the girl's trunk at the McCullough home yesterday which read "I have failed in my studies and cannot face you or my people again. PEDESTRIANS STIFLED BY NAUSEATING ODORS

Shoppers this morning cut short the tour and hurried home to avoid the odor Businessmen and clerks sought some space for air which had not been contaminated. The city park was comparatively free from loungers because of their having been driven to other quarters by the smell.

A brisk north wind aided in having the business district enveloped by the objectionable odor.

Johnson is wanted under a conviction for violation of the Mann act.

The federal officers indicated their watch was not based on any great confidence on reports emanating from Mexico that Johnson soon would be deported, but upon the possibility that there might be some truth in these rumors. They particularly discounted a report printed in one Mexican paper that Judge Luis Cacho, of Tiajuana, Lower California, had given the negro 30 days to leave the country. The reason for the order, the report said, was Johnson's alleged conduct toward Mexican girls.

Dave Gershon, special agent of the department of justice, said late last night Judge Cacho had denied knowledge of any such decree Persons in the confidence of Governor Esteban Cantu, of Lower California, also denied knowledge of the reported order. Gershon said, however, that because of the reports which have been current for several days, the watch at the border will be continued.

Johnson, according to common talk here has been in disfavor with the Mexican authorities for some time. He is said to have resented admonitions from the Mexican policee concerning his conduct.

Mr. Paterson is a Lorain county man, the son of Robert Patterson and used to live near Elyria on the Indian Hollow road He referred to many county associations in his opening remarks

He spoke on "Optimism and Courage." He said that would result here, but it behooved all to be intelligent and courageous.

He spoke of the work of a club like the Rotary to aid in bringing that end about through the recognition of individual character and activity.

He contrasted the ideals of Christianity with that of the Soviet One he showed worked from the inside out and the other from the outside in. It was considered one of the strongest addresses heard in recent months.

The organization of the new lodge has the heartiest approval of the old lodge and splendid co-operation is predicted between the two, in the many activities being arranged.

LABOR CHIEFS TO DISCUSS GOUGING

Irish Sympathizers Opposed to Ratification of League of Nations Without Reservations

Montreal, June 16—Profiteering, the league of nations, a non-partisan political program, and industrial courts were given the right of way in the convention here today of the American Federation of labor. The executive council's committee on resolutions was permitted to make its report as a special order of business.

Emphatic action against the high cost of living was promised before the day's session was ended Supporters of the labor party movement were ready to war on the commttee's recommendations that organized labor support the non-partisan political program outlined by President Gompers.

Irish sympathizers opposing the league of nations, because, they claim, it does not provide self determination for Ireland, declared they would fight to a finish any recommendation by the committee that the covenant be endorsed without reservations.

Condemn Kansas Court

Labor leaders predicted that the Kansas industrial court law would be condemned on the ground that it "enslaves the workers and is "Un-American."

The Plumb plan for nationalization of the railroads, it was learned today, has been rejected by the resolutions committee by a vote of 6 to 3. This subject probably will be reported to the federation tomorrow. The railroad unions have combined in an effort to override the committee's report.

Attempts by the executive council to amicably bring the amalgamated association of iron, steel and tin workers back into the steel industries organize campaign have failed. J. D. Davis, assistant president of the amalgamated, said today that there could be no hope of a settlement as long as the personnel and composition of the national committee for organizing iron and steel workers remained unchanged.

Supports Plumb Plan

John L. Lewis, international president of the United mine workers, announced that his organization would support the Plumb plan of railroad nationalization. The mine workers have the largest voting power in the federation. Their vote, with that of the metal trades and railroad organizaions, Plumb supporters said, would make it possible to override the non-concurrence report of the resolutions.

TOLEDO PASSES COLUMBUS IN OHIO RACE

Washington, June 16—Columbus has lost to Toledo its place as third largest city in Ohio, but has outstripped Louisville and St. Paul in rank among the large cities of the country. The population of Columbus was announced today by the census bureau as 237,031 an increase of 55,520 or 30.6 per cent. Toledo, which was fourth largest Ohio city ten years ago, with about 3,000 people less than Columbus, showed an increase of 74,612 or 44 3 per cent during the last decade and now has a population of 243,109.

Columbus ranked as 29th most populous city in the country in 1910 and its growth has exceeded that of Louisville, 24th city ten years ago, and St. Paul 26th city, both of which now have some 2,000 less people than the Ohio capital.

U. S. census returns today are:

Columbus, Ohio, 237,031; increase 55,520 or 30 6 per cent.

Lawrence, Mass., 94,270; increase of 8,378 or 9.8 per cent.

Independence, Mo, 11,686; increase 1,827 or 18.5 per cent.

Ashland, Ky., 14,729, increase 6.041 or 69 5 per cent.

LEGION MEMBERS ARE EXONERATED

5000 Batter Way Into Jail to Get Six After Attack

124 Soldiers and Six Officers Rushed Prepared for Riot Duty—Mob Held Mock Trial--Additional Arrest of Negroes With Circus Is Not Confirmed

Duluth, Minn., June 16.—Virtually normal conditions prevailed today on the Duluth business streets, over which a mob of 5000 persons surged last night, sweeping the police from power and seizing and lynching three negroes held in connection with an attack on a 17 year old white girl.

When two companies of Minnesota National Guardsmen reached here early today after a special train trip from St. Paul, they found only a damaged police station and littered streets as visual evidence of the mob's activity.

On Riot Duty.

Under personal command of State Adutant General W. F. Rhinow, the 124 men and six officers went into temporary camp preparing to patrol the streets, if necessary to guard against any eventuality that might arise as an aftermath of the mob's mad run The men are equipped for riot duty.

Available records today showed only one previous lynching in Minnesota, but this had not been confirmed in official sources Twenty years ago, it was said, a white man was lynched in this county near Mountain Iron, for attacking a girl.

Last night's lynchings were accomlished after the city's police force had been overpowered by bricks and streams from fire hose in an attack on police headquarters which front Superior street, Duluth's business thoroughfare.

Three Acquitted

Six negroes had been arrested by the police in connection with the attack on the girl, which took place at a circus grounds Monday night. The negroes were attached to the circus as roustabouts The mob held a mock trial, declared three of the negroes guilty and acquitted the other three, who today still were in the hands of the police.

The three convicted negroes were hanged within a block and a half of the police station, the mob hooting down pleas of two priests that the law be permitted to take its course It took three starts to hang the first negro, as the rope broke the first two times.

After the mob had dispersed early today the police cut down the bodies of the negroes which had not been mutilated. The authoritis did not expect any further trouble today and expressed themselves doubly sure of this in view of the presence of the guardsmen.

Report More Arrests

There was no new information here early today in regard to the negroes said to have been arrested at Virginia, where the circus appeared yesterday. It was reported that eight had been taken into custody, but that four had been released. Reports that authorities had started for Duluth with the four suspects, but had been diverted to some other town by reports of the rioting here, could not be confirmed early today.

Injuries suffered by eight policemen and a newspaper man in the brick fight and fire hose attack at the station were said today to be trivial.

An investigation of the action of the mob will be made, it was understood today, but just what form this investigation would take had not been determined when the guardsmen reached here.

A report received here today from Virginia, Minn., was to the effect that 10 negroes were being rushed in automobiles to St. Paul, guarded by deputy sheriffs, to be placed in the Ramsey county jail for protection. A score of automobiles carrying members of last night's mob had been reported on the way to Virginia from Duluth in an effort to seize other negro employes of a circus, whom they believed might have participated in the attack on a white girl here.

Deny Report.

St. Paul, June 16—Local police and county authorities today denied knowledge of a report from Virginia to the effect that 10 negroes alleged to have been connected with the attack on a white girl at Duluth were being brought to the Ramsey county jail here for protection.

AUTO BANDITS HOLD UP N. Y. BAKERY SHOP

New York, June 16—Four masked men each armed with two revolvers today entered the bakery shop of Stephen Murray, backed him, his wife and an employe against the wall and proceeded to rifle the cash box Mrs. Murray threw herself on the nearest bandit who tried to frighten her by firing at the floor. One shot took effect in Murray's foot and during the confusion the robbers escaped carrying off $200 in a limousine of expensive make.

GERMAN RAIDER WILL BE SOLD

Washington, June 16—One of the famous German commerce raiders, the Prince Eithel Fredrich, which took refuge in Hampton Roads during the early months of the war is to be offered for sale by the shipping board on June 30. This vessel in now named the Dekalb and is in the Hudson River where in January a fire of mysterious origin, destroyed her superstructure and damaged her hull.

As in the case of the giant liner Leviathian which is to be offered on the same day, sealed proposals will be received.

CAPTURE MEN WHO DIG UP HIDDEN RAISIN JACK

As an aftermath of the raid on an illicit still at Henrietta last week, came a second raid to the same place by officers last night.

The posse was led by Deputies Cowie and Cole with Deputies Lucas and Ferry, having been tipped off to the fact that some buried liquor on the farm where the former raid had been made was to be dug up, and that a visit was to be made that night to resurrect it.

The officers went to the spot and waited Finally a high powered automobile drew up and two men proceeded to a spot back of the house and began to dig. They were allowed to secure a twenty gallon keg that was hid in the ground, place it in their machine, and then start away. Meanwhile the officers went down the road ahead of them and waited. When the other car approached it was signaled to stop, but instead the driver put on speed. As it whizzed by one of the officers fired a shot and fortunately punctured a tire on the auto, causing the men to stop at once

They were arrested and gave the names of George Katrch and John Kimball of Lorain. These two men paid the balance of the fine of the men captured last week and it is understood were to have the buried liquor for their pay. They were charged with transporting liquor and will have a hearing tomorrow.

Tuesday afternoon the men were brought before Justice Chamberlain and were fined $500 and costs each, the heaviest penalty that has yet been imposed

Raid at Avon

Yesterday afternoon Sheriff Backus with deputies Banning, Cowie and Jerome Banning conducted another raid at Avon. They found the largest still in operation they have yet discovered. It was yocated on the Concord Road in the cellar of the home of Louis Oros, who with his helper John Costina were arrested.

When the officers arrived they were not recognized at first, and a customer was just taking a drink. The officers declared themselves and going to the cellar found a thirty-six gallon copper still in full operation. They also found six large barrels of raisin mash, and thirty boxes of fine seedless raisins and about thirty gallons of high grade liquor. These were confiscated, the liquor and raisins being held as evidence.

The men were evidently doing a flourishing business, and had a quantity of empty glass one-gallon jugs ready to be filled according to their customers needs.

BILLY WHISKERS

by FRANCES TREGO MONTGOMERY

"So, it was I they were talking about," thought poor Billy when the firemen had tied him to the pump. "Had I only known, they would have had a fine time catching me, and more than one man would have had bruises and torn clothes."

"Gee whiz!" he thought, a moment later, "but this water is cold that they are pumping upon me, and won't I get even with them all when I get loose!"

"Ouch!" cried one of the men, for Billy suddenly tossed his head, givng him a bump on the nose Then two of the men began to use brushes, one on each side, while a third kept the pump going, so, squirm and wriggle as he might, Billy got a generous supply of water and was drenched and shivering in spite of his efforts to free himself.

At last the firemen thought he was clean enough and they stopped scrubbing, while one of them said, 'Well, Billy Jr, how do you find yourself?" Billy glared at him and shook his head in answer but there was murder in his eye

Next the men drew cuts to decide who should untie him and, strangely enough, it fell to the lot of the fireman who was always cracking his whip at Billy and tormenting old One-horn When this man found that he was to untie Billy he said, "Very well, boys, you all get inside of the engine house and shut the big door, leaving the little one open for me to run through, but be sure to shut it quickly behind me or Billy will be inside as quickly as I am"

"All right," they answered, and away they went to do as bidden Then the fireman who was to do the untying aproached cautiously and first untied Billy's legs, leaving his head still tied to the pump then with a sharp knife he cut the last cord with one swift slash and ran for the engine house Quick as he was, our Billy was not far behind, for with one bound he covered half the distance that lay between them, while with another he went bang against the little door through which the fireman had but just disappeared.

The door was slamed shut in double-quick time and had Billy's head not been a hard one it must surely have split in two when it struck the door. However, it was made to withstand hard knocks and so, undismayed, he backed off to gather impetus for another rush; and then with a last pl[illegible] he split the door from top [illegible]tom and landed in a conf[illegible] heap right in the midst of th[illegible] onish- ed firemen, who sc[illegible]d in all directions with [illegible] haste than grace, thinking [illegible] getting out of reach of Bi[illegible] avenging horns. One man cl[illegible] up on the high seat of the [illegible] engine, another ran down cellar, while the third, the the particular one Billy was after, bounded up the stairs that lead to the firemen's bedroom. Billy kept on after him.

DEMPSEY READY NOW TO MEET CARPENTER

San Francisco, June 16.—Jack Kearns, manager for Jack Dempsey, heavy weight pugilistic champion of the world, announced today that Dempsey would be ready within two weeks to meet George Carpentier, the French heavy weight or "he will fight any one else in the world if Carpentier is unwilling to talk fight. "Labor Day was suggested as the date for the proposed contest.

Kearns issued a statement asserting that Dempsey's acquittal yeterday of a draft evasion charge in the United States district court here left his war record clear and that "there could be no more whispered campaign carried on about him."

He said he and the champion needed a two weeks rest after the strain of the trial and then they would be ready to arrange for a bout with the Frenchman, Kearns' statement in part said:

"Now Georges Carpentier, we're ready. If you have come to America to fight, here's your chance. Jack Dempsey is free and ready to meet you any where in the world. The chance you have been asking for a crack at the title is yours. The next move is also yours."

What a lot of argument there used to be about a woman driving an automobile

TODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

II

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle your tire problem is to get a tire of *known* value and stick to it.

III

We recommend and sell U. S. Tires because their value is *known.*

There's no guess about it.

It was the U. S. *quality policy* which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the *greatest additions* to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

ROYAL CORD · NOBBY · CHAIN · USCO · PLAIN

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

Cows Protest Against Wine 'Spiked' Water

Cadiz, O., June 16—Prohibition has indirectly caused a curtailment of the milk supply in this vicinity. Several hundred gallons of wine dumped into a sewer ing recently found its way into a creek through a number of pastures. Cows refusing to drink the "spiked" water have gone bone dry.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

He offered me a drink!

Down East last week I met Bill Smith, my old college roommate. I hadn't seen him since the good old days and when he said: "Let's have a drink!" it sure did sound like old times. I agreed just to see what he had to offer.

He led me into a drink dispensary where there were at least a couple of hundred different kinds of pop, ginger ale and goodness knows what else on sale.

"Two bottles of Buck!" he said to the young lady, and what should she trot out but that same good old Buck that I have been drinking at home for a long time now.

"This is the only really satisfying drink I've found," said Bill. "To me it's as good as real beer ever was. It has the identical taste and it sure is a thirst-stopper. Another thing—I find it stimulates my appetite at mealtime and is a great bracer on a hard, hot day. What more could a fellow want? I've quit kicking about prohibition."

Bill was interested when I told him I had seen Buck made and that nothing goes into it but selected rice, corn and barley and a little hops for flavor. That's why it's so pure and why so many cases go into homes today. Suppose you try a bottle of Buck. I bet you'll like it as well as we do. It sure hits the spot. Look for the name on the cap.

... June 16.—Whether new light will be shed on the mystery surrounding the murder of Joseph B. Elwell, sportsman and whist expert, depended on reports expected today from detectives who were sent to Lexington, Ky., to follow up what the police consider the most plausible clue to the identity of his assailant yet brot forward.

According to Edward Swann, district attorney, who personally has taken charge of the investigation, reliable information was given that Mr. Elwell left Lexington June 1, suddenly as a result of threats on his life by the father or brother of a prominent girl of that city. Mr. Swann declined to name the Lexington family.

Examination of numerous friends of the dead man, both men and women, has caused detectives to abandon the idea that he was killed by any one because of jealousy. "Of this one thing we are convinced," said Mr. Swann. "The murder was done out of revenge."

HARDING SOUGHT FOR SPEECH MAKING

Answers Telegram of Congratulation From Major General Wood

Washington, June 16—Senator Harding, republican candidate for president announced today that he had had a discussion of his campaign last night at a dinner with a number of republican leaders. They included Senators Lodge of Maschusetts, republican leader in the senate; Smoot of Utah; Brandgee of Connecticut and Fall of New Mexico.

"We discussed the state of the union, the prospects of the republican party and the platform which we adopted at Chicago" said Senator Harding.

Asked about reports that the peace treaty and league of nations would be the principal topics discussed in his speech of acceptance Senator Harding said he had "the feeling that public sentiment makes the paramount issue rather than the judgment of any party candidat or party managers"

Replying to an inquiry as to whether he would take part in the coming primary campaign in Ohio, the nominee said he "was the farthest removed from a political boss of anybody in the world."

"That is the complaint that has been made against me in Ohio," he added The senator said he knew nothing of ay plans for the formation of a third party and consequently had nothing to say on the subject

Washington, June 16.—With no fixed engagements or political conferences slated for today Senator Harding hoped to make rapid progress in cleaning up an accumulation of mail and senatorial work in preparation for his departure from Washington within a fe days for a vacation of two weeks or more.

The Republican nominee has not determined where he will spend his rest but says he plans to devote part of his time to his speech of acceptance he intends to select a quiet place In making a selection he will be sure there is a convenient golf course

Many requests to speak have have reached the senator from all parts of the country but for the present he will decline all such inviations.

Senator Harding today sent the following letter to Major Gen Leonard Wood in reply to the latter's telegram of congratulations:

"I do not know quite how to express my feelings in dictating an acknowledgement to one who was a contender for the distinction which came to me. Perhaps I shall express myself sufficiently if I say that had the distinction come to you instead of me I should have found very great pleasure and satisfaction in conveying to you a very cordial message of felicitation and good wishes.

"I know that we are both interested in the same great good to our common country and I feel confident that you will be very deeply interested in bringing about a restoration of a Republican party administration in Washington and a return to the constitutional methods of government which were the concept of the founding fathers"

Walter Brown of Toledo, who was Senator Harding's floor manager at Chicago called on the senator for a short time today Other visitors included Senator Stanley, Democrat, Kentucky and Former Senator Sutherland of Utah.

Among messages of congratulations received today by the nominee were letters from J. Hampton Moore, Mayor of Philadelphia former Gov M G. Brumbaugh of Pennsylvania; Miss Mabel Boardman, head of the American Reed Cross; Mrs John A Logan widow of the famous civil war veteran, and John Barton Payne secretary of the interior,

SOLDIERS KILL WOMAN, ARREST IS IMMINENT

Rockford, Ill., June 16.—Five soldiers of Camp Grant, near here, were sought today in connection with the shooting to death today of Mrs. Maude Lucille Moss, wife of Captain Leroy H. Moss, camp utilities officer and daughter of Colonel Bion J. Arnold, pioneer electrical engineer. It was reported today some of the men believed surrounded. The entire camp military intelligence froce was seeking to establish whether Mrs Moss was murdered or accidentally killed.

That Mrs. Moss had been shot was not known until the automobile in which she was riding with her husband and four friends had gone a half mile. The party just had passed the small group of soldiers, it was said, when a sharp report was heard. The motor party later recalled that they had thought it was a misfire of the motor. Striking a bump in the road Mrs Moss, who had been asleep on the rear seet wedged between Mr. and Mrs. William V McGreight, slumped forward. Mr. and Mrs. Mc Creight, believing Mrs Moss still was asleep when she failed to recover her position, put out their arms to aid her, and it was found only then that she had been wounded.

Captain Moss, who was driving, rushed to the camp base hospital but Mrs. Mos died a short time after reaching there, just before Colonel Arnold arrived.

Camp officers immediately caused a roll call of every unit and a search was begun for the men unaccounted for.

Captain Moss said he believed the shooting was accidental.

In November 1904, Mrs. Moss was lost for 24 hours on Pikes Peak and with her brother and a friend, was rescued from freezing only after a frantic search

PERSIA DEMAND FOR AID IS DELAYED

London, June 16—Forecasts that the reply of the council of the league of nations to Persia's request for intervention against bolshevik aggression would announce a postponement of any final decision were borne out by an official announcement made at a public meetig of the council this morning. The meeting followed two days of executive sessions. The council's reply stated:

"The council decided that before advising upon means by which the obligation prescribed by the covenant shall be fulfilled it is desired, in order to give every opportunity for the success of the conversations now progressing, to await the result of the promises made by the soviet authorities. Meanwhile the council requests the Persian representative to keep it informed of the march of events

"The obligation" referred to by the council in its statement is contained in the famous article ten of the covenant in which the members of the league "undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league.
